

8th Grade Summer Skills Math Camp

A 3-day, 3-hour-per-day “camp”, designed to hone middle school fundamental math skills, is being offered in August. Overcome your math fears and build your self-confidence prior to the start of the new school year.

Before we know it, the new school year will be just around the corner. Ms. Moreira, 8th grade algebra instructor, is excited to offer a summer math camp comprised of a variety of fun-filled activities in an informal, fun environment, to students who will be in 8th grade at Foothills Academy this fall 2009. Your child will be busy from start to finish with hands-on activities, card games, dice activities, physical movement, and mental math drills. Our Summer Skills Math Camp provides kids with hours of fun learning in a positive social environment. It’s a win-win situation for parents, teachers, and kids alike! Don’t miss out on the good times planned.
